Emile Guélard Ancilotti
Phase-Resolved 3D Modelling of Wave Breaking in a Flume
under Regular and Irregular Waves Forcings

Yen Chung HUNG
Hyperbolic dispersive breaking wave model with improved
breaking criterion

Henrik Kalisch and Adhemar Romero
Resilient Solutions for Coastal, Urban, Estuarine and Riverine
Environments

Víctor Loras Herrero
TBA

Matthias Largen
A composite-plunging breaker over sharp idealized reef"

Hedi Midouni
Directional transformation of infragravity waves over a shallow
Belgian sandbank under storm conditions"

Diego Slamovitz
Numerical Analysis of the Dynamics of a Wave Energy Hotspot
in Southwest France.
