

Newsletter Inria-Brasil

April 2025

Postdoctoral Campaign

/!\Last day to submit your postdoctoral offer (on a joint project with Brazil)

Collaborations between an Inria team and an academic institution from Brazil (LNCC or one of Brazilian universities, etc..) are eligible in the frame of this Call for postdoctoral positions to support international collaboration launched by Inria Department for International relations (the process to be realized by Inria teams is described here:

https://numin.inria.fr/portal/g:/spaces:71lwaa/base_de_connaissance/notes/7105

April 16: deadline to send your post-doc offer (research topic) and an argument describing an active collaboration with the partner at the following address: postdoc-dri@inria.fr)

Hybrid Thematic Workshops Inria Brasil

Inria and LNCC organize thematic workshops (in hybrid mode) with the aim of bringing together French and Brazilian teams working on the same theme to foster new collaborations:

<https://project.inria.fr/inriabrasil/workshops/>

The 4th hybrid thematic workshop was held in Campinas on **Digital Health** in partnership with **FAPESP** and **UNICAMP** in April 2025.

Congratulations!

To the 4 new Associate Teams with Brazil starting this year:

- GEM3: between Konstantin Brenner and LNCC, on Geophysical Modeling and Multiscale Methods.
- Giordano: between Liliana Cucu, KOPERNIC Inria team and *Universidade Federal da Bahia* on autonomous cyber-physical systems.
- TCHE: with Fernando Fernandes Dos Santos, TARAN Inria team and *Universidade Federal do Rio Grande do Sul* on Large Transformers models.
- DINIZIA: with Esther Pacitti, IROKO Inria team: in collaboration with *CEFET Rio, Fiocruz, LNCC and UFRJ* on Data Science for the Natural Environment.

About Inria Brasil:

Inria Brasil is an international program created in 2020 following the signature of an agreement with LNCC (Laboratório Nacional de Computação Científica- Brazilian Scientific Computing Laboratory). The goal is to develop research collaborations between Inria, LNCC and Brazilian key players in R&D (universities, research centers and companies).
