

How to create your import-environment

19/02/2013 – Justine Guillaumont

Create a new **Center** (what you need : Name, Town, Country)

To create your **Acquisition Equipment** / **Mr Model** / **Manufacturer** : *Manage Data > Acquisition Equipment > Create a new Acquisition Equipment > Create new Mr Model > Create new Manufacturer*

Create a new **Manufacturer** (Name)

Create a new **Mr Model** (Name, **Manufacturer**)

Create a new **Acquisition Equipment** (**Mr Model**, **Center**, Serial Number)

Create a new Coil (Name, **Center**, **Acquisition Equipment**, type)

Create a new Investigator (Name, **Center**, function)

Create a new Study (Name, **Center**, **Investigator**)

Technically all the existing Manufacturer and Mr Model should already exist in the system
