1) Add a member

Warning : the "Add member box" appears at the bottom of the page, click and scroll down

- 2) Manage members
- Change role/position
- Change the email notification (import or anonymization)
- Delete members

Delete Data

<u>Reminder</u> :

- A study contains examinations
- A subject is link to his examinations
- An examination contains datasets

You can delete datasets, examinations, subjects. But you can't delete something that is not empty. That is to say that <u>you can't</u>:

- Delete an Examination that contains Datasets
- Delete a Subject that has Examination

Delete Datasets

Fill the criteria of your datasets research :

- 1) Study name
- 2) Dataset name : "%" is a wildcard, it can replace any character
- Ex: "%T1%" \rightarrow dataset name that contains "T1";
- "ASL%" \rightarrow dataset name that starts with "ASL"
 - 3) Subject name, ...

Run your research and select your data

- 4) Click on "Search Datasets"
- 5) Select the datasets you want to download :
- Click on "Select all" or
- Check the datasets one by one
